

Cat 6 and Fiber Tester with Enhanced Data Management

New DSP-4100 Digital CableAnalyzer™

- Fluke Digital Signal Processing technology delivers consistent, repeatable accuracy
- Superior diagnostics make troubleshooting fast and easy
- Intuitive user interface makes learning a breeze
- Rugged design endures tough working conditions
- Graphic reports show professional certification results
- Memory card allows instant data hand-off

Upgrade your DSP-4000

If you own a DSP-4000, you can upgrade to the DSP-4100 with the DSP-4100E Upgrade Kit. The kit contains instructions for contacting Fluke Networks to schedule your upgrade with an authorized Fluke Service Center. Just send in your DSP-4000, and a technician will upgrade your DSP-4000 main and remote units and return them with a removable 16 MB memory card, a PC card reader, Fluke CableManager™ Software v4.0 and a users manual.

The DSP-4100E Upgrade Kit can be ordered now; delivery begins September 2000.

DSP-4100 Digital CableAnalyzer™
See Quick Results. Show Color Reports.

The DSP-4100 builds on the DSP-4000's industry leading performance. New features on the DSP-4100 include:

Hand-off results instantly with MultiMedia Card

Generate graphic test results in color with your company logo

Save time in the field with automated link name sequencing

Transfer test results to PC with memory card reader, freeing up your DSP-4100 for testing

Includes Free CableManager software with powerful data management
